## News Release

# BITHGROUP Technologies completes mobile biometric services for the University of Maryland Medical System

Baltimore, MD - July 27, 2010

BITHGROUP Technologies is pleased to announce a partnership with the University of Maryland Medical System (UMMS) providing mobile biometric services to their employees. In 2006, House Bill 1318 and Senate Bill 769 were passed, requiring criminal history records checks of all Registered Nurse (RN), Licensed Practical Nurse (LPN), and Certified Nursing Assistant (CNA) renewal applicants. Criminal History Record Checks (CHRC) for selected renewal applicants will begin this year. The Maryland Board of Nursing will be implementing the CHRC for renewals, one month per year for the next 12 years. As a result, there will be an enormous number of employees needing to be fingerprinted. BITHGROUP Technologies' mobile biometrics unit resolves this problem by offering on-site biometric services, providing convenience and flexibility to employees of UMMS.

### About BITHGROUP Technologies' Biometrics Division

Based in Baltimore, Maryland, BITH Biometrics has partnered with L-I Identity Solutions/Integrated Biometric Technologies to become a private provider site that provides biometric services to applicants and organizations throughout the state of Maryland. Through this strategic partnership, BITHGROUP has provided biometric services for a number of clients including Baltimore City Public Schools, Baltimore County Public Schools, Baltimore County General Government, TESST College of Technology, ADT, Education, Sports, and Fun (ESF) Summer Camps Gilman & Georgetown as well as a host of other private and public organizations.
