## News Release

### **BITHGROUP Technologies, Award-winning Technology Company Kicks Off Its Third Annual Science Technology Engineering Mathematics Program for Area College Students.**

#### **Baltimore, MD – June 23, 2010**

On Tuesday, June 15, 2010, at 9:00 am, BITHGROUP Technologies hosted the kick-off session for its Science Technology Engineering Mathematics (STEM) summer program for college students for the third consecutive year. College Engineering and Computer Science majors from Baltimore City and Baltimore County are participating in this unique holistic STEM Program.

During this engineering-oriented summer program, the students will learn about alternative energy sources such as wind, solar, green roofs, water and hydrogen. They will work on the current technologies that BITHGROUP employs such as biometrics, renewable energy solutions, energy management software, web development, database management, IT consulting, cyber security, mobile commerce and network support. The students also participate in community service and visit technical museums and worksites. One of the unique features of this summer's program will be touring a BITHGROUP Technologies-outfitted "green house" in Baltimore City powered by renewable energy sources. Additional discussion topics covered included entrepreneurship, leadership, teamwork, time management, conflict management, career readiness, financial management and organizational skills.

The kick-off session was held at BITHGROUP Technologies' headquarters at 113 West Monument Street Baltimore, Maryland 21201.

#### **About BITHGROUP Technologies**

A multistate-certified MBE headquartered in Baltimore, Maryland, BITHGROUP Technologies has been providing premiere IT solutions across the US for over 16 years. Core services include wireless engineering and security, biometrics, energy management & engineering, information technology consulting, healthcare IT and management consulting.

In addition to its solid reputation for across-the-board excellence, BITHGROUP enjoys strategic relationships with many of the country's most successful corporations including Accenture, IBM, SAIC (Science Applications International Corporation), Microsoft, Aruba, EDS, Northrop Grumman and Avaya, to name a few.

BITHGROUP Technologies has been recently recognized for its business and community accomplishments in local, state and federal governments. These coveted awards include NMSDC MD/DC Council Leader in Green Initiative Award (2009), Mayor's Business Recognition Award (2009), Maryland's 2009 Top 100 Minority Business Enterprise Award (2006, 2008, 2009) and Greater Baltimore Council, Bridging the Gap Achievement Award (2008, 2009).

We meet complex IT challenges with innovation, bold vision, and great attention to detail. [www.bithgroup.com](http://www.bithgroup.com)
